## THERMAL CRANE SCALE

### Thermal Crane Scale

Accurate, rugged and reliable weighing solutions for foundries and steel plants

### FEATURES

- Large & Bright Red LED display for excellent visibility
- Robust mechanical structure
- Over load protection
- High-tension hook and shackle
- Weight accumulation function
- Remote control calibration, Wireless option available
- Infrared remote controller (distance 20 m)
- Optional heat shield model for high temp ladle
- Power saving mode;
- Rechargeable Battery
- Push button Tare facility,

### TECHNICAL SPECIFICATIONS

|                   |                                           |
|-------------------|-------------------------------------------|
| Power supply      | 230V AC, 50 Hz.                           |
| Power consumption | 6W                                        |
| Display           | Bright Red LED                            |
| Display digit     | 5 Digits                                  |
| Display size      | 32 mm                                     |
| Safe overload     | 150% of FS                                |
| Battery charger   | External                                  |
| Battery           | In-built 7.4V/5Ah Rechargeable battery    |
| Remote control    | Key operation                             |
| Battery operation | 150 Hours (when battery is fully charged) |

### APPLICATIONS

- Foundry
- Steel
- Forging
- Ladle Weighment
- Engineering
- Ship Building Industry
- Tensile Test

All our products are certified to meet ISO/OS standards
